

Just a quick note.

We'll be calling you soon to verify your business and mobile phone numbers.

Great news! Revere Bank is now a part of the Sandy Spring Bank family.

Expect a call from Sandy Spring Bank in the next few weeks. To help ensure a smooth transition of your online banking services, we need to verify business and mobile phone numbers.

- Sandy Spring Bank's business online banking service (called ebiz® Online Banking) has an extra layer of built-in security to protect you and your business.
- The first time you login to ebiz at Sandy Spring Bank, or if you ever login from a device or network we don't recognize, we'll send you a one-time security code via a phone call or text message.
- Enter the security code once you receive it and you'll be all set to go.

Here's what we need you to do.

- Gather mobile and business phone numbers for all business online banking users in your organization.
- Then, provide the numbers when you receive your call from a bank representative.

Without current phone numbers on record, users will not be able to take advantage of the upcoming ebiz Preview (more information to come in July), or login to ebiz and mobile banking services at Sandy Spring Bank beginning August 17, 2020.

Welcome again to Sandy Spring Bank. For up to date transition information, please visit sandyspringbank.com/welcome.
